TRADITIONAL PRACTICES

Traditional Lubricant Storage & Handling Practices are...

• Filthy
• Disorganized
• Unsafe
• Wasteful
• DESTRUCTIVE

"By the time you can see or feel the dirt in the oil, much damage to your machine has already been done."

Jim Fitch, Noria Corporation
Global Leader in Lubrication Education
Modern Lubricant Storage & Handling Practices are...

- Clean
- Organized
- Safe
- Efficient
- RELIABLE

“With managerial support for training, improvements in storage and handling, and continuous improvements in lubrication procedures and practices... lubrication improvements can deliver strong financial rewards for relatively few dollars invested.”

Ed Bohn, Plant Lubrication Specialist, General Motors
Excerpt from “GM Invests in Lube Program Upgrades”
Machinery Lubrication
OS INTRODUCTION

What is the Visual Lubrication System?

The OILSAFE Visual Lubrication System™ is a fully integrated and color-coded fluid management system developed by OILSAFE to enable the systematic and standardized delivery of well identified and clean lubricants from bulk storage to the point of application on equipment.

The System emphasizes color-coding, identification, standardization, workplace organization, waste reduction, contamination control and a propensity for best practice in the following areas:

- Bulk Storage & Handling
- Transfer Equipment
- Identification
- Spill Containment
- Cleanliness

System Benefits

The System delivers immediate and substantial improvements in workplace lubrication practices, efficiency and productivity, reduces waste and significantly contributes to equipment uptime. The system maintains a focus on ensuring the 5Rs of lubrication are satisfied between bulk storage and the point of application;

- The right product
- The right place
- The right amount
- The right time
- The right attitude

Find Out More

Within this Visual Lubrication System™ Catalog are featured various best practice solutions for you to choose from. When combined, these solutions will enable the creation and implementation of a world class lubricant bulk storage to point of application system that can be standardized across your operations with the flexibility to meet your particular applications, requirements and budget.

OILSAFE has proven expertise in developing and customizing product solutions and identification conventions that can meet your specific requirements and have a range of solutions in addition to those featured in this Visual Lubrication System™ Catalog.

Should you have a requirement that is currently not met, please contact your OILSAFE representative for more information and assistance.
Industry today is under intense pressure to reduce costs, do more with less and to comply with increasingly demanding regulations.

OILSAFE recognizes these pressures such as OSHA Right-to-Know laws and also the continuous improvement opportunities represented by proven concepts such as 5S and LEAN that manufacturers around the world are endeavoring to implement on the shop floor to address workplace challenges and extract additional profits from operations.

When identifying opportunities for clients to extract profits and reduce costs within their lubrication program, OILSAFE strives to develop innovative best practice solutions that enable concepts such as 5S and LEAN to be practically and rapidly implemented on the shop floor. This ensures our products add value to the process and remain consistent with the overall continuous improvement methodology management is seeking to implement across their operations.

**5S**

5S is a continuous improvement methodology originated in Japan that is focused on effective workplace organization. The key targets of 5S are workplace morale, safety and efficiency, with effective implementation simplifying the work environment, reducing waste and non-value activity, while improving quality, productivity, and safety. 5S represents Sort, Set, Shine, Standardize and Sustain.

**How Does OILSAFE Help?**

The OILSAFE Visual Lubrication System™ provides a comprehensive offering to enable the rapid introduction of 5S practices into the workplace. Our color-coded products and storage systems provide for an orderly workplace, that is clearly identified, systematic, safer for workers, and improves a worker’s pride in their craft by giving them the right tools for the job where and when they need them.

**LEAN**

Derived from the Toyota Production System, LEAN manufacturing is a production practice that considers the expenditure of resources for any goal other than the creation of value for the end customer to be wasteful, and thus a target for elimination.

**How Does OILSAFE Help?**

With a focus on efficiency and waste elimination LEAN objectives are more easily achieved with the OILSAFE Visual Lubrication System™. Our solutions deliver greater productivity through improved equipment reliability, sensible storage solutions that provide ease of access to equipment in the shop or in the plant, and purpose built equipment that eliminates contamination and makes the job easier, faster, safer and cleaner.

**Right To Know**

Right to Know is an OSHA regulated requirement focused around the principle that workers have the right to know the fluids that they may be exposed to in the workplace.

**How Does OILSAFE Help?**

To deliver on this requirement workplace containers must be clearly labeled to identify the contents. The premise is that if a worker does not know what is in a container, they do not know if it is safe to handle. While most companies have adequate labeling on their bulk storage, most have no or inadequate labeling on their transfer containers. The Visual Lubrication System™ incorporates the OILSAFE Identification System that provides innovative industrial grade labeling solutions for bulk storage to point of application equipment that can be quickly and easily supplied and installed to address this issue.
Transfer Containers ................................................................................................................................. 8
The innovation that started it all. OILSAFE dispensing containers have been tried and proven in the toughest work environments for more than a decade – easier, faster, safer.

Pumps & Pump Accessories .................................................................................................................. 10
Pumps and accessories for the OILSAFE container system.

Transfer Container Accessories & Spare Parts ....................................................................................... 12
Extend the operational life of your OILSAFE containers with these accessories and spare parts.

Barrel Equipment ........................................................................................................................................ 13
For easy and efficient dispensing of oils and fluids from barrels.

inTelliPort™ Fluid Analysis System ........................................................................................................... 13
Easily and accurately monitor fluid levels and quality.
For more than a decade, OILSAFE has been the oil transfer management system preferred by leading companies around the world.

People often go to great lengths to preserve the quality of their oil only to contaminate it by using filthy containers, pouring it through a dirty funnel or inadvertently mixing it with different oil.

The color-coded range of OILSAFE containers provide:
- A fully sealing unit that prevents contaminants from getting into the oil
- Easier dispensing without the need for secondary tools such as funnels

Open top, unsealed, homemade containers deliver contaminated lubricants into the heart of your machinery.

OILSAFE Visual Lubrication System of Products:
By color-coding your lubricants and integrating with our OILSAFE identification products you’ll prevent cross contamination and misapplication of oils. With 5 different lid types designed to fit each of the 5 different drum sizes, you can mix and match the components to build heavy duty durable containers that will meet your oil transfer requirements.

Integrate OILSAFE identification products to manage your fluid transfer from bulk storage to point of use. This portfolio of products combine to form the revolutionary Visual Lubrication System that protects lubricants from contamination, reduces machinery downtime, and minimizes dangerous and costly spills.

These OILSAFE products are available in 10 colors:
Utility Lid, Stretch Spout Lid, Mini Spout Lid, Stumpy Spout Lid, Storage Lid and Premium Pump.
Transfer Containers

Mix and match lids and drums to get the right lubricant transfer container for the job.

Integrate OILSAFE products to manage your fluid transfer from bulk storage to point of use. Our Visual Lubrication System of products combines to identify, protect and reduce machinery downtime.

**STUMPY SPOUT LID**

Ideal for engine and gear oils and when a higher lubricant flow is required.

The 1” spout opening on the OILSAFE Stumpy Spout Lids is the largest on OILSAFE spout lids. It’s design is ideal for applications where a higher lubricant flow is required, such as for engine oils and gear oils.

Add a Stumpy Spout Hose Extension to help with awkward or hard to reach fill points.

**PART # : 102021 – Stumpy Spout Hose Extension**

**PART #**

100500 – Beige  
100501 – Black  
100502 – Blue  
100503 – Dk. Green  
100504 – Gray  
100505 – Mid Green  
100506 – Orange  
100507 – Purple  
100508 – Red  
100509 – Yellow

**STRETCH SPOUT LID**

When precise pouring of lubricants is required.

With a 0.5” spout opening and a longer spout the OILSAFE Stretch Spout Lid is ideal for lower viscosity oils (less than ISO 220) and is designed for hard to reach areas.

Add a stretch Spout Hose Extension to help with awkward or hard to reach fill points.

**PART # : 102020 – Stretch Spout Hose Extension**

**PART #**

101010 – 10 Liter / US Quart

UTILITY LID
Ideal for topping off crank cases and gearboxes.

Multi-Purpose Utility Lid with large outlet hole (approx. 2”) enables controlled fast pouring of lubricants.

The Utility Lid is designed to mate with an OILSAFE Standard or Premium Pump on a 3, 5 or 10 liter/US quart drum to take care of hard to reach and time consuming pumping applications such as gearboxes and transmissions.

STORAGE LID
For on-site fluid storage and transporting applications.

With this lid, OILSAFE Drums can be pre-filled for safe storage and transport and can be located for easy and timely access to fluids where and when needed. A convenient alternative to handling bulky 20 liter/US quart drums. Advanced thread design ensures secure fully sealing fit on a 1.5, 2, 3, 5 or 10 liter/US quart drum.

DRUMS
Fully graduated in both metric and imperial to assist with measuring fluid volumes.

Tough, and comfortable to handle, these drums come in 5 different sizes and fully seal when fitted to any genuine OILSAFE Lid. The drums have an extra wide neck opening (4.7” / 120mm) for rapid pouring and easy cleaning. Made of industrial-grade material that withstands the toughest working conditions, the drums are designed to last and are available in 1.5, 2, 3, 5, or 10 liter/US quart.

- Made of heat-resistant materials with UV additives
- Ultra-durable construction. Will not warp, leak, bend or break
- All Lids fit all genuine OILSAFE Drums from 1.5 through to 10 liter/US quart

Use with OILSAFE labeling to color-code and uniquely identify your lubricants.

See OILSAFE labeling section on page 25.
Pumps & Accessories

Match with an OILSAFE Utility Lid and a 3, 5 or 10 liter/US quart OILSAFE Drum.

Integrate OILSAFE products to manage your fluid transfer from bulk storage to point of use.
Our Visual Lubrication System of products combines to identify, protect and reduce machinery downtime.

PREMIUM PUMP

Feature rich and will handle up to ISO 680 fluids.

Sharing the unmatched efficiency and reliability of the OILSAFE Standard Pump, this heavy duty discharge pump is color-coded, has an ultra comfortable D handle grip design and has fully serviceable internals for maximum life.

Supplied standard with a 5 foot anti-drip outlet discharge hose and color-coded Body Collar, this pump can also be easily converted for quick connect use. Quick connects enable the container to be filled through the stainless steel pump body (without removing the lid) and also enables attachment to machinery fill points by quick connect via the pump discharge hose.
Quick connect Kits and replacement parts are available.

Premium Pump comes standard with Viton® O-Rings for oils where solvent content may be higher.

Match with an OILSAFE Utility Lid and a 3, 5 or 10 liter/US quart OILSAFE Drum.

For smaller fill hole applications add a Pump Reducer Nozzle accessory to the outlet nozzle. See page 12.

STANDARD PUMP

General purpose pump will handle up to ISO 460 fluids.

This high quality down-stroke discharge pump is perfect for quickly and easily accessing hard to reach and time consuming top up points such as gearbox and transmission applications. Supplied with a removable discharge hose for easy cleaning and drainage, the pump delivers 1 liter for approximately 12 strokes.

Match with an OILSAFE Utility Lid and a 3, 5 or 10 liter/US quart OILSAFE Drum.

Supplied with 5 foot Removable Discharge Hose with a hook outlet nozzle. The anti-drip nozzle is made of aluminum and fits 1/2” and larger fill holes.

For smaller fill hole applications add a Pump Reducer Nozzle accessory to the outlet nozzle. See page 12.
DISCHARGE HOSES
For on-site fluid storage and transporting applications.
Available as a replacement 5 foot hose or in a 10 foot version for when longer reach is required, these Discharge Hoses screw easily to OILSAFE Standard and Premium Pumps.

Available in two types:
- Anti-drip hook outlet – for discharging lubricants into open fill points ½” and larger. Available in 5 foot and 10 foot. Custom lengths available on request.
- ¼” NPT Male end – for fitting quick connects. Available in 5 foot and 10 foot. Custom lengths available on request.

PREMIUM PUMP QUICK CONNECT KITS
No need to remove the lid!
Configure the OILSAFE Premium Pump for operation with quick connects. This enables the container to be filled by quick connect through the pump body (no need to remove the lid) and also enables attachment to machinery fill points by quick connect via the pump discharge hose. No mess, no contaminated oil top ups.

Kit contents:
- Discharge hose (available in two lengths) with ¼” NPT male adapter for fitting of your preferred female quick connect
- ¼” NPT Male adapter for pump return port for fitting of your preferred male quick connect
- 10 Micron Breather fits to Premium Pump accessory port providing contaminant free air intake when using quick connects

Note: Does not come supplied with male or female quick connects.

PREMIUM PUMP BREATHERS
Protection against airborne contaminants during the pumping process.
Available in two different sizes these breathers screw into the accessory port on OILSAFE premium Pumps. Choose from the 10 micron baffle breather (shown in photo) or 3 micron trap breather.
The 10 Micron Baffle Breather is included with the Premium Pump quick connect Kits.
Transfer Container Accessories & Spare Parts

Enhance and extend the operational life of your OILSAFE containers with these accessories and spare parts.

**O-RING KITS**

Spare Parts

Replace the seals on your OILSAFE equipment with these pre configured kits. All OILSAFE products, except the Premium Pump, come standard with Nitrile O-Rings. Consider Viton® O-Ring seals for synthetic oils where solvent content may be high.

**UTILITY LID CAP**

Spare Parts

Replacement Cap for OILSAFE Utility Lid.

**1/4" NPT MALE ADAPTER**

Secure and robust fitting for quick connects

For use with OILSAFE Premium Pump this brass fitting provides for secure and robust fitting of quick connects.

**AIR BREATHER KIT**

Spare Parts

Replace the auto-shut-off air breather button on OILSAFE Spout Lids. Comes complete with Nitrile O-Rings and suits Stumpy, Stretch and Mini Spout Lids

**EXTENSION SLEEVE - PUMP**

Spare Parts

OILSAFE Pumps (both Standard and Premium) are provided with Extension Sleeves enabling the pumps to reach the bottom of 10 US Quart Drums. This replacement Extension Sleeve comes standard with a Nitrile O-Ring.

**PUMP REDUCER NOZZLE**

Suits both OILSAFE Standard and Premium Pump.

This Pump Reducer Nozzle accessory fits to the aluminium anti-drip discharge pipe on the outlet end of the Pump hose and reduces the outlet diameter down to approximately 1/4", making oil top offs to very small fill points easy, simple, fast and clean.
BARREL EQUIPMENT
For easy and efficient dispensing of oils and fluids from barrels.

PART # 950000 LEVER ACTION BARREL PUMP
Ideal for oil and oil based fluids.

Designed to fit containers ranging in size from 15 gallon (50 liters) through to 55 gallon (205 liters), this popular lever action pump is engineered for professional use. Ideal for oil and oil based fluids the pump has:

- A plated steel lever handle with rubber grip for convenience
- Built in 1.5” and 2” bung for use on drums with either opening
- Premium powder coated steel pump body with ribbed section aluminum die cast pump head for maximum strength
- Curved metal spout and telescopic suction tube

With a non return Viton® seal the pump can also be used with antifreeze, solvents, thinners, automotive additives, industrial chemicals and other non corrosive liquids. It is not suitable for water based fluids, gasoline and corrosive media.

PART # 950020 ROTARY BARREL PUMP
Ideal for use in industrial & automotive applications.

This heavy duty rotary barrel pump has an aluminum die cast body and includes a 2” cast iron bung adaptor and die cast aluminum handle with security locking latch.

- Complete with a 3 pc threaded suction tube for use on 15 gallons (50 liter) – 55 gallons (205 liter) barrels
- Recommended for use with lubricating oils up to SAE 30, gasoline, diesel fuel and kerosene.
- Do not use – with corrosive liquids, solvents, acids, alkalis etc
- 1.8 m PVC nitrile delivery hose with metal nozzle, spring and hose clamp

WARNING! Never operate the pump near fire or source of spark. Some media may be explosive and dangerous to pump.

PART # 950150 DRUM OPENER
An easy and convenient tool to open almost all types of drums.

- Ends of the wrench are designed to fit perfectly onto most 2” and ¾” Drum Plugs
- Compact design for easy storage, the opener is manufactured from cast aluminum, hardened and tempered for increased strength

INTELLIPORT FLUID ANALYSIS SYSTEM
Quick and easy condition assessment of your equipment’s vital fluids to help insure cleanliness, reducing downtime and maintenance costs.

The easy-to-install and -access sight glass gives you greater insight into the status of fluids and helps your respond before major issues arise.

- Flat front sight glass with etched and painted crosshairs, allowing a clear view of fluids without distortion
- Shatterproof, stain-proof and chemically resistant
- Built-in sampling port
- Access point for quick sampling and hand-held instrument tests
- Corrosion indicator
- Easy to remove and view magnetic plug nut allows for easy glass rotation or removal

**Grease Guns**

Innovative, high-quality OILSAFE grease guns and accessories. Support 5S and Lean initiatives with the innovative identification features on all OILSAFE guns.

**Grease Gun Accessories**

High-quality accessories to enhance the usability of your OILSAFE Grease Guns.

**Grease Filler Pump**

Protect bulk grease pails from contamination and dispense the grease into grease guns with this grease pump.

**Grease Gun Cartridge Accessories**

Protect grease cartridges from accidental damage with this innovative line of cartridge protection and storage tools.

**Grease Fittings, Accessories & Protectors**

High quality grease fittings in a variety of sizes and styles. Protect, maintain and replace grease fittings with this suite of tools and grease fitting protection products.
Grease Guns

Match the color-coded Grease Gun to an OILSAFE color-coded Grease Fitting Protector to ensure the right grease is used in the right equipment.

Integrate OILSAFE products to manage your fluid transfer from bulk storage to point of use.

Our Visual Lubrication System of products combines to identify, protect and reduce machinery downtime.

PISTOL GRIP GREASE GUN

This heavy duty, top of the line grease gun is ideal for one handed operation and are designed for use in confined spaces where access to grease fittings is restricted.

The pistol grip is designed to prevent fingers from pinching and includes a soft rubber handle grip for comfort.

Provided with both a 4” steel extension and 12” flexible extension.

- 3-way packable (suction, cartridge or filler pump)
- Super strong pistol grip handle with soft rubber grip
- Pistol grip design prevents fingers from pinching
- Develops 5000 PSI / 345 BAR

LEVER GREASE GUN

Variable stroke lever action for greater control of delivery – especially in tight working spaces.

This heavy duty, top of the line grease gun is designed for punishing day-in and day-out heavy industrial applications.

Provided with both a 6” steel extension and 12” flexible extension.

- 3-way packable (suction, cartridge or filler pump)
- Have capacity for 14 oz (400gm) cartridges or will fit 500cc bulk filled
- 1/8” NPT threads
- Soft rubber grip for non-slip operation.

Grease Gun Accessories

Use these innovative, high quality accessories to enhance the performance of your OILSAFE Grease Guns

**FLEXIBLE GREASE HOSE**

Easier access to fittings that are hard to reach.

Fit these flexible hoses to OILSAFE grease guns and allow easier access to fittings that are hard to reach. Available in two lengths.

Also consider the heavy duty spring guard for extra rigidity to the coupling end of the hose, allowing added safety and convenience in fitment – particularly effective when working with Grease Control Valves.

The Heavy Duty hose may be used on hand operated or air operated grease guns.

**WARNING!** Never use beyond recommended working pressure.
Never exert undue pressure on the lever handle.

**WARNING!**

Prime pumps when using for the first time. Pour 30 mL oil into the pump outlet and operate lever handle until grease starts dispensing.

**PART # 331440**

**USEFUL TIPS**

Prime pumps when using for the first time. Pour 30 mL oil into the pump outlet and operate lever handle until grease starts dispensing.

**GREASE METER**

Maximize bearing life.

Fit this grease meter to your OILSAFE Grease Gun and push the button to zero before each application. The result is shown in large (11/32” – 9mm) and clear digits and the meter can be backlit for operation in darker areas.

The meter includes a re-setable total-counting mechanism and will fit with any of the OILSAFE flexible hoses or steel extensions. The meter housing is made of anodized aluminium and has 2 x ISO- R 1/8 female fittings.

With this Grease Meter it is possible to grease precisely according to the bearing manufacturer’s recommendations. Can be calibrated to ensure accurate measurements.

**SPECIFICATIONS:**

- **Working Pressure:** Max 70 psi - 10,000 psi
- **Flow:** Max 1000 cm³/min
- **Measuring Accuracy:** +/-3%
- **Battery:** 2 x 1.5V LR1
- **Grease Consistency:** Up to NLGI 2
- **Weight:** 0.7 lbs (0.3 kgs)

**GREASE FILLER PUMP**

No mess or waste. Get the benefits of buying grease in bulk and prevent contamination with this easy to use Grease Filler Pump.

Quickly, cleanly and easily load OILSAFE and other guns with bulk filler points. The female load adapter on this pump will adapt to both American (0.58”) and European Straight (9mm) loader fittings.

**Recommended Use:**

- For grease up to and including NLGI 2
- Designed for use with 25-50lb / 5 gallon grease pails

**PART # 330999**

**SPECIFICATIONS:**

- **Working Pressure:** Max 70 psi - 10,000 psi
- **Flow:** Max 1000 cm³/min
- **Measuring Accuracy:** +/-3%
- **Battery:** 2 x 1.5V LR1
- **Grease Consistency:** Up to NLGI 2
- **Weight:** 0.7 lbs (0.3 kgs)
Grease Gun Cartridge Accessories

Preserves the integrity of the grease and avoids damage to grease cartridges that cause grease gun malfunctions.

**CARTRIDGE PROTECTION TUBE**

Protects grease cartridges against damage/weather, preserves the integrity of the grease and avoids damage to grease cartridges that cause grease gun malfunctions.

The Tubes provide a clean, safe method of transporting cartridges from vehicle or shop to the point of use and enables the safe and clean return of used grease cartridges from the work site or work vehicle for safe and environmentally responsible disposal.

To withstand the toughest conditions, the Cartridge Protection Tube has an in-built label holder and is transparent for quick and easy identification of contents so that you can be sure that the correct grease is inserted into the correct grease gun every time.

Available in 10 colors:

- Beige
- Black
- Blue
- dk Green
- Mid Green
- Orange
- Purple
- Red
- Yellow

Tubes are supplied standard with a black Hanging Hook and black Outdoor Paper Content Label.

OILSAFE ID Label enables more accurate, color-coded identification of cartridges. See pages 30-35 for labeling information.
PART # 300108 – Cartridge Caddy

PART # 300500 – OILSAFE Kit Caddy & (6) six Protection Tubes

**CARTRIDGE CADDY**

Safe and easy transport of Cartridge Protection Tubes.

The Cartridge Caddy enables safe and easy transport of Cartridge Protection Tubes around the plant and in vehicles providing the ability to store grease cartridges for complete organization in the workplace.

Manufactured from market-leading materials for strength and durability, Cartridge Protection Tubes lock securely into the base of the Caddy to store up to six cartridges per Caddy.

Available in a Kit (shown at right):
Cartridge Caddy and 6 Clear Protection Tubes

PART # 300208

**CARTRIDGE RACK**

Grease cartridges are protected, organized and accessible.

Wall-mounted cartridge rack solves the issue of searching around the shop to locate grease cartridges and allows for the protection and organization of grease cartridges for ease of location and access.

Store up to 12 cartridges per rack using OILSAFE Cartridge Protection Tubes and Hooks.

Mount multiple Cartridge Racks side by side to accommodate as many grease cartridges as required.
Grease Fittings, Accessories & Protectors

High quality grease fittings in a variety of sizes & styles. Identify, protect, maintain and replace grease fittings with this suite of tools & protection products.

GREASE FITTINGS

Available in Packages and Kits

Incorporating the most popular sizes, these Grease Fittings are manufactured to the most stringent quality standards. For added protection against contamination consider using OILSAFE Grease Fitting Protectors (see opposite page).

SAE Grease Fitting Kit

PART # 340000

SAE assorted 80 piece kit:

- 25 pcs 1/8" - 27 PTF Straight
- 10 pcs 1/8" - 27 PTF 45°
- 10 pcs 1/8" - 27 PTF 90°
- 15 pcs 1/4" - 28 SAE LT Straight
- 10 pcs 1/4" - 28 SAE LT 45°
- 10 pcs 1/4" - 28 SAE LT 90°

METRIC Grease Fitting Kit

PART # 340100

Metric Assorted 80 piece kit:

- 20 pcs M6 x 1 Straight
- 10 pcs M6 x 1 90°
- 15 pcs M8 x 1 Straight
- 10 pcs M8 x 1 90°
- 15 pcs M10 x 1 Straight
- 10 pcs M10 x 1 90°

Grease Fitting Accessories

A selection of tools to maintain your grease fittings

4 WAY GREASE TOOL

Handy, dual purpose tool

Remove worn and broken grease fittings as well as re-tapping holes for installing new grease fittings.

Works with both straight and angled fittings and is available in small and large sizes for use on almost all threaded fittings.

- For installing straight grease fittings
- Screw extractor for removing worn & broken grease fittings
- For installing angled grease fittings
- Hardened tap for re tapping holes

Grease Fitting Unblocker Professional

Opens clogged grease fittings and loosens hardened grease joints.

Excellent for maintaining & protecting bearings, control arms, joints, king pins, etc.

Tool has an all steel construction and is designed to be tapped with a hammer to force a light viscosity oil through the tool into the coupler finally into the grease joint, breaking up and removing dirt and debris.

Comes complete with grease coupler for connection onto the grease fitting and hose for hard to reach fittings.

“Drive Fit” Grease Fitting Installers

Specialty tools for installing straight and angled Drive Fit grease fittings into untapped holes.

Heavy duty steel construction with zinc-plated finish.

GREASE FITTING PROTECTORS

OILSAFE Grease Fitting Protectors save you the cost of equipment failures related to contamination or misapplication.

Grease Fitting Protectors deliver a secure seal over most common grease fittings providing excellent protection against contamination. Furthermore, with 10 colors and space for labels the Grease Fitting Protectors clearly identify what grease is required for the fitting.

These innovative, patented products provide a number of benefits over traditional Zerk protectors, including:

- Use as part of the fully integrated, color-coded visual fluid management system
- Available in 10 colors. Custom and pre-printed labels available, see pages 30-35.
- Recessed head for label placement
- Innovative design ensures easy removal from Zerk fitting – even when wearing work gloves
- Durable industrial grade materials
- Available in various sizes and in pre-configured kit formats
- Makes grease fittings easy to find and Supplied in bags of 100

GREASE FITTING PROTECTOR KITS

Enables you to dedicate a specific color to a specific grease.

OILSAFE Grease Fitting Protector Kits come in 3 color kits consisting of Blue, Purple and Red, as well as 6 color kits consisting of Black, Blue, Mid Green, Purple, Red and Yellow. This enables you to dedicate a specific color to a specific grease. Grease Fitting Protectors also come in various sizes to suit most common grease fittings. See charts below for part numbers and sizes.

Pre-Configured Kits ................................................................. 26
Experience OILSAFE today with these cost effective kits.

Popular Labeling Solutions .................................................. 28
Popular labeling solutions for different applications.

Identification Labels ............................................................. 30
The types of labels available in the OILSAFE System.

Label Holders & Accessories ............................................... 36
Purpose-built industrial label holders and accessories are ideal for everything from lubricant bulk storage through to the fill point.
Manage your fluid transfer from bulk storage to point of use. The OILSAFE unique Visual Lubrication System of products combines to identify, protect and reduce machinery downtime.

OILSAFE is the only industrial grade labeling system in the world that enables accurate lubricant identification from bulk storage to the fill point. In the process providing:

- 5S – color-coded, identification and order
- LEAN – the right lubricant in the right fill point
- Right to Know – ensuring operators are aware of what they are handling

The fully integrated OILSAFE system is comprised of two core components:

- Labels – available in various sizes, styles and materials
- Label Holders – many different types and combinations to address the challenges of securing labels in an industrial environment

Innovative, practical and durable, this fully integrated and color-coded labeling system also:

- Ensures the right lubricant goes into the right machine every time
- Improves OSHA compliance
- Accommodates inclusion of MSDS information at all steps of the lubrication process
- Enables consistent identification of bulk storage, intermediate containers and point of use
- Flexible and suitable for multiple workplace applications
- Industrial grade, high quality and suitable for outdoor use
- Improves productivity and efficiency
- Increases bottom line savings

How to Implement the OILSAFE® Labeling System

Customized & Standard Fluid Identification from Bulk Storage to the Point of Use

BULK STORAGE UNITS
The first step in the chain of custody. Ensuring that Lubrication Technicians can clearly identify the lubricant they need.

Solutions range from simple adhesive labels through to solutions that include complete MSDS information.

TRANSFER CONTAINERS & LIDS
Cross contamination of lubricants can be just as damaging as dirt and water. Match the transfer container label to the bulk label to eliminate the potential for cross contamination, and ensure that employee’s Right To Know entitlements are addressed.

POINT OF USE
Getting the right lubricant into the right fill point (contaminant free) is one of the simplest ways to reduce maintenance and operating costs.

Matching the container label to the fill point label is the final step.
Pre-Configured Kits

These cost effective OILSAFE Kits enable first hand, on site evaluation of our unique visual lubricant labeling system.

DRUM LABEL KIT

The Drum Label Kit is designed to accompany your color-coded OILSAFE Lid, Drum and Label offering on site evaluation of the OILSAFE unique visual lubricant labeling system.

Each Kit includes a color-coded comprehensive selection of the products to work in conjunction with your color-coded OILSAFE Lid, Drum and Label:

- **5 Label Holder components**: 1 - 2 x 3.5 Label Pocket, 1 - Color-coded Label Pocket Frame, 1 - Lockable Drum Ring, 1 - Label Leash, 1 - Color-coded Drum Ring. These components combine to create two (2) pre-configured solutions for different labeling requirements and experimentation.

- **Guidance Sheets** – Best practice suggestions for common labeling applications

Experience the:

- **Versatility** – with multiple options for most situations
- **Durability** – of our heavy duty industrial grade components

Kits available in 10 colors to match your OILSAFE Lid, Drum and Label:

Each Drum Label Kit includes these selected components which combine to form two (2) solutions:

 Featured below: Yellow Drum Label Kit – **PART # 207109**

NOTE: OILSAFE Drum, Yellow Lid and Custom Label not included.
LABELING EVALUATION KIT

The OILSAFE Labeling Evaluation Kit is designed to enable first hand, on site evaluation of our unique visual lubricant labeling system.

The Kit includes a comprehensive selection of the products, including:

- **Label samples** – various materials, sizes and designs
- **Label Holder samples** – pre configured solutions for different labeling requirements and parts for further experimentation
- **Guidance Sheets** – best practice suggestions for common labeling applications

Experience the:

- **Versatility** – with multiple options for most situations
- **Fit** – with different size components to suit your differing equipment needs
- **Durability** – of our heavy duty industrial grade components

EXPERIENCE OILSAFE TODAY with this cost effective Labeling Evaluation Kit!

</table>

**Advantages**

- Easily secures to taps and other fittings
- Water Resistant

### DRUM PUMP

<table>
<thead>
<tr>
<th>Components</th>
<th>page</th>
</tr>
</thead>
<tbody>
<tr>
<td>Adhesive Labels</td>
<td>30</td>
</tr>
</tbody>
</table>

**Advantages**

- Available in various sizes and styles

### GREASE PAIL

<table>
<thead>
<tr>
<th>Components</th>
<th>page</th>
</tr>
</thead>
<tbody>
<tr>
<td>Adhesive Labels</td>
<td>30</td>
</tr>
</tbody>
</table>

**Advantages**

- Available in various sizes and styles

### Color-coded Drum Ring

<table>
<thead>
<tr>
<th>Components</th>
<th>page</th>
</tr>
</thead>
<tbody>
<tr>
<td>Color-coded Drum Ring</td>
<td>37</td>
</tr>
</tbody>
</table>

**Advantages**

- Fits securely around OILSAFE drum ensuring clear color-coded identification even with lid removed
- Consider adding a leash and label pocket to accommodate extra information

### Drum Ring Label (optional)

<table>
<thead>
<tr>
<th>Components</th>
<th>page</th>
</tr>
</thead>
<tbody>
<tr>
<td>Drum Ring Label (optional)</td>
<td>32</td>
</tr>
</tbody>
</table>

**Advantages**

- Fits securely around OILSAFE drum ensuring clear color-coded identification even with lid removed. Leash and label pocket accommodate extra information
- Water Resistant
OIL SAFE labels accurately identify your lubricants from Bulk Storage to the Fill Point.

**OIL FILL POINTS**

**Components**
- Leash page 40
- Label Pocket page 36

**Advantages**
- Easily secures to taps and other fittings
- Water Resistant

**GREASE GUNS**

**Components**
- Adhesive Labels page 30

**Advantages**
- Adheres to side of grease gun

**GREASE FILL POINTS**

**Components**
- 0.5” Adhesive Label page 30
- ID Tab page 38
- Washer page 38
- Lens page 23, 39

**Advantages**
- Heavy duty solution with discrete label and color-coding. Fits by means of washer with standard BSP sizes up to 1”
- Consider using swivels to improve access/visibility or a leash & pocket for additional information

- Protects from contamination and ensures accurate identification
- Consider adding a leash & pocket for additional information
Identification Labels

OILSAFE® has developed a comprehensive suite of industrial grade labels to suit your lubricant labeling program. Labels are available in a variety of sizes, materials and styles to provide the flexibility needed for the challenges that exist in industrial environments.

CONTENT LABELS ........................ page 32
Content Labels are available in 10 colors and have a large clear space for the addition of extra information.
Examples shown here:
- 2" Adhesive Content Label - Purple - PART # 282207
- 2" Paper Content Label - Purple - PART # 280507
- 2" x 3.5" Adhesive Content Label - Red - PART # 282108
- 2" x 3.5" Paper Content Label - Red - PART # 280008
- 3.25" x 3.25" Adhesive Content Label - Mid Green - Part # 282305
- 3.25" x 3.25" Paper Content Label - Mid Green - Part # 280305

PRE-PRINTED LABELS .............. pg 33
Pre-printed label sets are designed for increased workplace efficiency.
Examples shown here:
- 0.5" Adhesive Frequency Label - Weekly - Part # 900481
- 0.5" Color & Fill Point - Blue - Available upon request
- 0.5" Shape, Color & Fill Point - Available upon request

OILSAFE WIZARD & CUSTOM ID LABELS .............. pgs 34, 35
An online tool that enables you to add your information into predefined identification label templates.
Labels are produced to your design in economical quantities and shipped to your door.
Very easy, cost effective and high quality identification labeling.

CUSTOM LABELS
We have engineered custom labels and label systems for some of the world’s largest companies. If the identification solutions above do not meet your specific requirements talk with one of our representatives to find out how OILSAFE can help by designing and delivering your required labels to meet your unique needs.
Description
OILSAFE Adhesive labels are made of heavy duty Polyester and have a permanent adhesive. The label material can resist water and most lubricants. Apply to a clean flat surface for best long term adherence.

Description
With a paper-like texture enabling easy writing, these heavy duty labels have built-in protection against the rigors of industrial workplaces. Use with OILSAFE pockets and other label holding components for attachment to bulk storage, transfer containers and fill points.

Description
Similar to credit cards in size and weight, these highly durable cards are made for the toughest work environments. Over laminated for additional protection of printed information these cards can be fixed with a OILSAFE leash or with heavy duty double-sided tape.

---

**LABEL SIZE MATRIX**
A variety of sizes to suit easy attachment of labels in the workplace.

Labeling an OILSAFE Container

Labeling an OILSAFE Container

Labeling Bulk Storage

Labeling Grease Guns

Labeling Grease Protection Tubes

Polyester Adhesive

Water & Tear Resistant
0.5” FREQUENCY LABELS
Typically used to indicate the filling frequency of a lubricant fill point.
These labels are black text on white background and can be used with any colored Grease Fitting Protector or ID Tab. Polyester Adhesive. Supplied 180 to a sheet.

NFPA LABEL - BLANK
Clearly identify the NFPA information of any substance.

SAMPLE POINT LABELS
Clearly identify Lubricant Sample Points with these durable Plastic Card Labels – available in two formats and can be written on with marker pen.

USED OIL LABELS
Clearly identify used oil containers and assist with regulatory compliance with these durable Polyester adhesive labels available in a variety of sizes.
Wizard & Custom Labels

The illustrations below show a range of labeling solutions.

Available in 10 Colors:
- Beige
- Blue
- Gray
- Orange
- Red

10 Shapes available in 10 Colors:

Custom shapes or symbols are available upon request.

OILSAFE WIZARD

With the patent pending OILSAFE Wizard system, you can create simple or detailed fluid identification labels tailored specifically to your unique fluid requirements.

The OILSAFE system of labels manage and accurately identifying fluids from bulk storage to intermediate container to the point of use. Use OILSAFE labels to support reliability improvement and safety compliance.

Consider using a color and/or shape combination to uniquely identify your lubricant or fluid.

CUSTOM LABELS

In addition to the innovative Wizard, OILSAFE can custom create nearly any label for your lubricant identification requirements. Tell us more about your requirement so we can work with you to deliver a cost effective industrial solution.
**HOW DOES THE OILSAFE® WIZARD WORK?**

Custom ID Labels. You Create. OILSAFE Delivers.

OILSAFE Wizard is a simple and intuitive web based platform designed to support online creation of labels and provide rapid supply of those labels to your door. A simple, fast and immediate solution to your fluid identification needs, OILSAFE Wizard labels are designed to ensure that the right fluid goes into the right machine every time.

**HOW TO CREATE OILSAFE CUSTOM ID LABELS**

**STEP 1: Choose a label type**
Using the OILSAFE web site webstore, select the style, size and material of label appropriate for your application.

**STEP 2: Choose a color and shape**
Effective and accurate identification is best achieved through the use of prominent and unambiguous visual indicators. OILSAFE Wizard label templates support the creation of a labeling system that uses color and shapes as the cornerstone for identification and ensuring operators accurately match a lubricant to a fill point.

**STEP 3: Complete your label**
Complete some or all of the remaining identification fields in the label template to provide a greater level of information at the fill point or on a container. Particularly useful to help with OSHA Right to Know requirements.

**STEP 4: Review and place the order**
Once satisfied with the label design and contents, determine the quantity required and add to the cart for fast and efficient ordering.

**STEP 5: Label Holders & Accessories**
Make sure you have the right label holders to secure and protect your label.
Label Holders & Accessories

Label Holders are core components of the OILSAFE System and are used for protecting, presenting and enabling attachment of labels.

Integrate OILSAFE products to manage your fluid transfer from bulk storage to point of use. Our Visual Lubrication System of products combines to identify, protect and reduce machinery downtime.

**LABEL POCKET**

Protects and secures labels

Pockets are available in 2 sizes, each pocket is double sided and accommodates content labels, card stock and other OILSAFE labels. Provides ample space for comprehensive identification information on transfer containers, bulk storage or fill points.

Made to withstand tough outdoor conditions, these pockets are a powerful tool in ensuring your employee’s right to know is satisfied.

The larger size pocket is particularly effective for storing MSDS sheets as well as larger size labels

The 2” x 3.5” size pocket can be used in conjunction with Label Leashes and is a highly effective, economical way to label fill points

Leashes - see page 40

**LABEL POCKET FRAME**

Industrial grade color-coded Label Frames protect and identify

Color-coded Label and Label Pocket insert directly into the color-coded Frame, creating a highly visual, simple and reliable system for ensuring the right lubricant goes into the right machine every time.

Connect Label Pocket Frames to equipment via OilSafe Magnets, Clamps, Swivel Joints or Leashes, or on to OilSafe Drums via an OilSafe Drum Ring.

- Fits 2” x 3.5” Label and Label Pocket
- Industrial grade - protects Label and Label Pocket, suitable for outdoor
- Highly visual for color-coding - available in 10 colors
- Attach an OilSafe Magnet to the rear of the Label Pocket Frame for quick and replaceable labeling to metal surfaces such as; oil barrels, drums, totes, plant and equipment

**PART #**

- 200101 – 2” x 3.5”
- 200102 – 4” x 3.25”

**PART #**

- 200000 – Beige
- 200001 – Black
- 200002 – Blue
- 200003 – Dk. Green
- 200004 – Gray
- 200005 – Mid Green
- 200006 – Orange
- 200007 – Purple
- 200008 – Red
- 200009 – Yellow
COLOR-CODED DRUM RING

OILSAFE Color-Coded Drum Rings fit securely and easily to all OILSAFE Containers and provide clear and effective color-coding.

Adhesive labels are also available to enable more detailed identification. Options include “Contents” label with space for written information, or a custom label using the OILSAFE Wizard.

- Available in 10 colors
- Industrial grade with UV stabilizers and anti-static additives
- Recessed panel for Drum Ring label placement
- A hook for additional labeling options with leashes and pockets
- Enables the quick and easy removal of the entire labeling assembly from the drum when the drum requires cleaning - unlike adhesive sandwich bag labeling concepts that leave messy residues and require constant replacement at the time of drum servicing or re-labeling

LOCKABLE DRUM RING

Designed for OILSAFE containers, the industrial-grade Drum Ring provides a secure way of attaching Label Pockets & Frame.

Use with multiple Label Pockets and color-coded Frame to identify container and lubricant, along with other information including MSDS and Right to Know.

- Designed specifically for OILSAFE containers, attaches frame & multiple label pockets
- Ring held into place by secure locking lug and OILSAFE Lid
- Enables the quick and easy removal of the entire labeling assembly from the drum when the drum requires cleaning - unlike adhesive sandwich bag labeling concepts that leave messy residues and require constant replacement at the time of drum servicing or re-labeling

207005 – Mid Green
207006 – Orange
207007 – Purple
207008 – Red
207009 – Yellow

PART # 201001

Recessed panel for label placement
Hook for hanging additional info
Slides over neck of OILSAFE drums
Affix Label Pocket or Label Pocket Frame
Label Holders & Accessories

Label Holders are core components of the OILSAFE System and are used for protecting, presenting and enabling attachment of labels.

Integrate OILSAFE products to manage your fluid transfer from bulk storage to point of use.

Our Visual Lubrication System of products combines to identify, protect and reduce machinery downtime.

ID TABS

Ideal for Fill Points

OILSAFE ID Tabs provide durable labeling and fill point identification options when mated with a color-coded OILSAFE Fill Point ID Washer.

Available in 10 colors, identification can be achieved through simple color-coding or enhanced by the addition of a label into the label recess, or hanging by leash. Supplied in bags of 6.

Pre-printed labels are available for ID Tabs (see pages 33-34) or create your own with the help of your representative.

FILL POINT ID WASHERS

OILSAFE Fill Point ID Washers enable durable and comprehensive color-coded identification of machine oil and grease fitting fill points.

Washers can be used alone for simple color-coding, or combined with OILSAFE components for more information at the point of use. Supplied in bags of 6.

- Temperature resistant, Chemical resistant
- Enables attachment of ID Tab which makes oil fill points easier to find on equipment
- Swivel Joint Accessory enables rotation into desired position for improved access and visibility
- Enables attachment of Label Clamps to provide for comprehensive identification information
- Available in 10 colors, enabling color-coding of fill points
- 6 BSP sizes - 1/8", 1/4", 3/8", 1/2", 3/4", and 1"

GREASE FITTING PROTECTORS

OILSAFE Grease Fitting Protectors save you the cost of equipment failures related to contamination or misapplication.

Grease Fitting Protectors deliver a secure seal over most common grease fittings providing excellent protection against contamination. Furthermore, with 10 colors and space for labels the Grease Fitting Protectors clearly identify what grease is required for the fitting.

These innovative, patented products provide a number of benefits over traditional Zerk protectors, including:

- Use as part of the fully integrated, color-coded visual fluid management system
- Available in 10 colors. Custom and pre-printed labels available, see pages 30-35.
- Recessed head for label placement
- Innovative design ensures easy removal from Zerk fitting – even when wearing work gloves
- Durable industrial grade materials
- Available in various sizes and in pre-configured kit formats
- Makes grease fittings easy to find and Supplied in bags of 100

GREASE FITTING PROTECTOR KITS

Enables you to dedicate a specific color to a specific grease.

OILSAFE Grease Fitting Protector Kits come in 3 color kits consisting of; Blue, Purple and Red, as well as 6 color kits consisting of; Black, Blue, Mid Green, Purple, Red and Yellow. This enables you to dedicate a specific color to a specific grease. Grease Fitting Protectors also come in various sizes to suit most common grease fittings. See charts below for part numbers and sizes.

Label Holders & Accessories

Purpose-built industrial label holder accessories, ideal for everything from lubricant bulk storage through to fill point labeling.

Integrate OILSAFE products to manage your fluid transfer from bulk storage to point of use. Our Visual Lubrication System of products combines to identify, protect and reduce machinery downtime.

**LABEL LEASH**
A better, more secure fit when attaching Label Pockets to containers, machinery, piping and other fittings.
- Use individually or combine to create a longer leash
- Can be easily removed and reused
- Industrial grade

**POCKET FRAME LEASH**
Designed specifically for keeping the OILSAFE Pocket Frame and the Label Pocket tight & secure.
- Attach Pocket Frames to containers, machinery, pipe and fittings
- Are for individual use only, i.e. DO NOT join with other leashes to make a longer leash
- Can be easily removed and reused

**HIGH STRENGTH MAGNETS**
Affixes frame to bulk fluid barrel or other metal surfaces.
- High-strength, custom-built magnets fix label pockets and color-coded label frames to bulk fluid barrels, totes, storage racks, machinery, equipment, or any other metal surface. This enables operators to find what they need when they need it, while ensuring no misapplication of fluids occurs.
- High strength, Industrial grade.
- Snaps securely into label frame.
- Custom-built.

**SWIVEL ID TAB**
Enables the position of the ID Tab to be adjusted for improved visibility or access to the fill point.
The OILSAFE Swivel Joint ID Tab mates with any size OILSAFE Fill Point ID Washer and an ID Tab to provide durable color-coded identification and labeling at fill points.

**SWIVEL POCKET FRAME**
Provides detailed identification information at the fill point.
The Swivel Joint enables easy adjustment of the Pocket Frame position for improved visibility or easier access to the fill point.

**ID WASHER LABEL CLAMP**
Enables comprehensive data matching to machinery fill points.
ID Washer Label Clamp fits to OILSAFE color-coded Fill Point ID Washer for comprehensive identification of equipment fill-points, air breathers, auto-lubers etc. Clamp in a Label Pocket and Label Pocket Frame, if desired.
- Snaps onto locating lug of OILSAFE ID Washer
- Accommodates Label Pockets and Frame
- Enables comprehensive information to be visible and accessible at the actual point of use
LABEL WRAP

In addition to grease guns, Label Wraps can also be used on pipes, auto-lubricators, air breathers, spray cans, barrel pumps and other suitably sized cylindrical objects.

One of the greatest challenges in lubricating with grease guns is identifying what grease is inside the gun. The OILSAFE color-coded grease guns and clear grease guns are an excellent starting point; but when more information is needed the OILSAFE Label Wrap enables secure attachment of a label and protects the label from damage.

Clear and durable the Label Wrap uses a OILSAFE Label Pocket (page 36) to place and provide the first layer of protection for the label. In addition to grease guns, Label Wraps can also be used on pipes, auto-lubricators, air breathers, spray cans, barrel pumps and other suitably sized cylindrical objects.

OILSAFE Label Wrap is available in two styles. The Removable version clamps into place but can be easily removed for reasons such as cleaning the gun or changing the label. The Bonded version clamps on and is securely held in place by adhesive strips.

Once the grease gun is labeled with a Label Wrap simply match the label on the Grease Gun to the label on the cartridge or pail to make sure the right grease is loaded into the gun, then match the label on the gun to the label on the grease fitting to ensure that the right grease goes in the right equipment.

Label Wraps:
- Enable identification of Grease Gun contents
- Are clear and durable
- Come in two versions – Removable & Bonded
- Can be applied to a variety of cylindrical objects
BULK STORAGE & DESICCANT BREATHERS

Modernize your Lubricant Storage & Handling Practices

Traditionally, machinery lubrication has been seen as a function of low importance, being messy work, requiring limited skills and lacking organization and structure. **This is changing.**

Our best practice lubrication reliability solutions contribute to **5S, LEAN** and **TPM** improvement initiatives and also assist with addressing **OSHA Right-to-Know** and other workplace safety and environmental compliance issues.

All the while maintaining a focus on **ensuring the 5Rs** of lubrication are satisfied between the lube room and the point of application:

- The RIGHT... Product
- The RIGHT... Time
- The RIGHT... Place
- The RIGHT... Attitude
- The RIGHT... Amount

---

**TRADITIONAL**

- Filthy
- Disorganized
- Unsafe
- Wasteful
- DESTRUCTIVE

**MODERN**

- Clean
- Organized
- Safe
- Efficient
- RELIABLE
OILSAFE Bulk Systems are the most feature rich and highest quality lubricant storage and dispensing systems available.

Introduction
Perfect for any workplace looking to instantly establish best practice by quickly ridding itself of antiquated bulk oil storage equipment and processes. An OILSAFE Bulk Storage System will enable you to take immediate control over your lubrication workflow process and get your lubricant storage areas and practices clean, efficient and compliant.

Simply choose from one of our base systems and then configure it to meet your specific workplace requirements.

System Benefits
- **Clean, Safe and Professional** storage and handling of bulk lubricants restores pride in the craft and drives workplace organization and efficiency
- **Choice of 4 Steel Tank** sizes; (30, 65, 120 and 240 gallons)
- **Scalable and Configurable** – scale system to accommodate the number of lubricants required for storage and dispensing
- **Choice of 10 Tank Colors & Identification Labeling** – use colors and labels as part of a lubricant identification convention to ensure the right lubricant goes into the right transfer container and the right machine
- **Spill Control** – all systems come standard with integrated spill pans for SPCC compliance and overall environmental protection
- **Fire Suppression** – includes MSHA-CFR30 – rated flame resistant fire suppression hoses as standard with optional fusible link tank isolation valves and auto-shut off Taps
- **Filtration** – all systems come with fluid filtration capability with a choice of micron ratings and also desiccant air breathers
- **Accommodate lubricants up to ISO 680.**
- **All systems ship in fully assembled pods** – for efficient freight and rapid on-site installation
- **Transport** – all systems have integrated spill transport pallets for easy forklift and hand truck access for freight and workplace mobility

Establish Best Practice
- **Lubrication Reliability (5R’s)**
- **LEAN Manufacturing**
- **Workplace Organization (5S)**
- **Environmental Compliance (SPCC)**
- **Safety Compliance (OSHA - Right to Know)**

* Photographed Lubrication Work Center shown with optional Storage Cabinet.
System Types & Features

The OILSAFE Bulk Storage System can be configured or customized to suit your application and budget.

The base systems featured in this brochure have been defined for your convenience and highlight a number of popular pre-configured solutions.

There is no limit to the different configurations possible with the OILSAFE Bulk Storage System. The system is fully modular and interchangeable therefore if none of the solutions shown in this brochure meet your exact requirements, speak with your OILSAFE representative so that a custom configuration can be developed.

Advanced
If you want best practice with value that delivers, this is it.
- Best Practice Contamination Control
- Very space efficient
- Easy relocation around the plant
- One Pump & Filter per Tank
- Pressurized dispensing

Lubrication Work Center
If you want the best, this is it. There is nothing better.
- Ultimate Best Practice
- Instant Lube Room
- Premium ergonomic dispensing and working surfaces
- Parts & Tool storage
- Electrical & Mechanical protection systems
- One Pump & Filter per Tank
- Pressurized dispensing
- Numerous upgrade options

System Types & Features

TANKS

Mix and match different tanks to meet your lubricant volume and identification requirements.

- **Color-coded** – choice of 10 colors for accurate lubricant identification
- **4 Standard tank sizes** – 30, 65, 120 & 240 gallons. If this brochure doesn’t include the particular tank combinations you need – let us know. We can easily configure a system to meet your requirements
- **Heavy Duty Construction** – 12 gauge steel for long life; TGIC polyester powder coated for additional durability

FLUID CLEANLINESS

Minimize lubricant contamination with:

- **In-line filtration** – ensures fluid cleanliness
- **Desiccant Breather** – dedicated breather for each tank ensures cleanliness by removing airborne contaminants and moisture build up
- **Dispense** – clean oil from high quality auto-shut off Taps to transfer containers
- **Filling** – suction tubes with secure, clean quick connects
- **Superior contamination control** with Advanced Systems and Lubrication Work Center:
  - **Dedicated components** – each tank has its own Pump, Filter and Suction Tube to eliminate cross contamination
  - **3 way in-line filtration** – filter every time you move the fluid – fill, recirculate & dispense
  - **Dispense** – optional Hose Reels for dispensing to transfer containers and carts *(Lubrication Work Centers only and Limited Advanced Units.)*
  - **Filling** – dedicated suction tubes per tank
  - **Recirculate & Re-filter** – ensure maximum cleanliness and service life

COMPLIANCE

- **Fire Safety** – all systems come standard with MSHA-CFR30 rated hosing and include auto-shut off tank isolation valves
- **OSHA – Right to Know** – color-coded and labeled tanks and taps ensure accurate fluid identification and handling
- **EPA – SPCC** – System comes standard with integrated spill containment transport pallets for EPA SPCC compliance
- **Electrical Protection** – Lubrication Work Center comes with circuit breakers, surge protectors, motor overload protection, grounding kit & emergency shut-down for enhanced asset and personal protection
- **TEFC Motors on all systems**

CUSTOM ID LABELING

Fully integrated customized identification labeling upgrades are available upon request to assist with no mistake application, OSHA Right-To-Know Compliance and NFPA.

SPILL CONTROL

Multi-Tier Spill Control

- **Spill Pallets** – integrated spill pallets ensure compliance with EPA – SPCC legislation
- **Drip Trays** – removable drip trays collect accidental drips and spills that may occur when dispensing into transfer containers. Made of stainless steel for durable long life and ease of cleaning
- **Auto shut-off Fire Safety Valves** – (included as standard) auto shut-off tank isolation valves for superior spill protection in the event of fire
- **Auto shut-off dispensing taps** – high quality auto shut-off taps ensure minimal spills when operators are dispensing to transfer containers and avoid spills or loss if taps not closed after use
STORAGE

Built in cabinets and shelving ensure the fluid handling tools, equipment and identification parts are close to hand and stored in a highly organized manner.

- Workplace Organization (5S)
- Cabinet Dimensions: 45" (w) x 45" (d) x 88" (h)
- Four Big Deep Shelves - for bulk storage of containers, sorbents, grease guns, filters, oil analysis equipment and other fluid handling shop equipment.
- Six Large Smooth Glide Drawers - with removable parts trays for storage of fittings, tools, labels and parts.
- Removable plastic parts bins easily clip on and off internal racks to increase storage capacity and speed for small parts selection.
- All welded, high quality powder coated cabinet used as a standalone unit or easily adjoined with any OILSAFE Bulk Storage System.
- Cabinets ship fully assembled and ready to use!

MODULAR HEAVY DUTY CONSTRUCTION

Shipping in pre-assembled modules, the fully welded and powder coated steel frame sets are highly durable.

- Ships in pre-assembled modules that are ready out of the box for fast and easy on-site installation and implementation
- Integrated pallets – that are forklift and hand truck compatible enabling easy transport into position, or moving to a new position if required
- Modular design accommodates highly efficient road or sea freight anywhere in the world

GENERAL FEATURES

- Top mounted Level Gauges – easy and safe viewing of tank fill level
- Retractable Cable Reel Grounding Kit & System Earth Lugs – to mitigate static-electricity build up
- Suitable for storing machinery lubricating oils and glycol based coolants.
- Power – all systems come standard with 110V single phase TEFC motors and can be configured for other power supplies as required. Air pneumatic option available, (240V, 50/60 Hz, Pneumatic)
- Identification – system comes standard with color-coded tanks and generic labels for each tank, tap, suction hose and port
The OILSAFE Lubrication Work Center is the best practice solution for storage and dispensing of lubricating oils and glycol based coolants in industrial facilities. An instant Lube Room, this premium configuration incorporates best of class features such as:

- **Dedicated pump and filter per tank** – to prevent cross contamination of lubricants and ensure maximum cleanliness
- **Electrical Protection** – circuit breakers, surge protectors and motor overload protection all ensure safe and effective operation in demanding environments
- **Spill Containment** – built in spill containment for EPA SPCC compliance
- **Ergonomic dispensing station** – dedicated ergonomic dispensing center with premium work surfaces and parts & tool storage
- **Pre-assembled** – delivered pre-assembled with detailed owner’s manual including installation instructions
- **Fully welded and powder coated structural steel frame set** for maximum durability in industrial environments
- **12 Gauge Steel Tanks available in 4 sizes and 10 colors** – 30, 65, 120 and 240 gallons
- **Flame Resistant Fire Suppression Hose Assemblies** – MSHA-CFR30 rated

### HIGHLIGHTS

- **Dedicated Pump & Filter per Tank**
- **Electrical Safety Enclosure located at rear of System**
- **Retractable Static Discharge Reel**
- **Level Gauges**
- **Desiccant Breather**
- **Storage Shelf**
- **Spill Pallet**
- **Pallet Truck or Forklift Compatible**
- **Ergonomic filling of containers from color-coded dispensers**
- **Stainless Steel Drip Tray**
- **Tools & Parts Storage Compartment**
- **Optional hose reels for dispensing to mobile carts and larger containers**

The OILSAFE Advanced Bulk System delivers best practice contamination control in a compact and space efficient form. Ideal for organizations that need the superior contamination control, working within budget and/or space constraints.

Features include:

• Dedicated pump and filter per tank – to prevent cross contamination of lubricants and ensure maximum cleanliness
• Spill Containment – built in spill containment for EPA and SPCC compliance
• Flame Resistant Fire Suppression Hose Assemblies – MSHA-CFR30 rated
• 12 Gauge Steel Tanks available in 4 sizes and 10 colors – 30, 65, 120 & 240 Gallon
• Delivered pre-assembled with detailed owner’s manual including installation instructions

Choose from one of 9 pre-configured systems or configure your own by determining the number and size of tanks that best suit your requirements.

HIGHLIGHTS

Space EFFICIENT

Easy dispensing to transfer containers from color-coded dispensers

Auto-Shut off Taps

Removable Stainless Steel Drip Tray

Pallet Truck or Forklift Compatible

OilSafe's Filtration Units help ensure your industrial fluids maintain purity from storage to application. Eliminate cross-contamination with our color-coded, flat face quick connects. Discover the cleanest and safest filtration system on the market with our removable primary containment vessel, which prevents spills and waste of industrial fluids. Available in portable and stationary configurations.

AVAILABLE IN 2016!
Additional Bulk Handling Systems

55 GALLON DRUM WORK STATION

The OILSAFE 55 Gallon Drum Work Station delivers best practice contamination control for 55 Gallon Drums in a modular, ergonomic and space efficient form:

• Positive displacement Gear Pump (3-5GPM) with internal bypass
• 2-way filtration (discharge and re-circulate “kidney-loop”)
• Comes standard with 7µ, β2000 Spin on filter (4µ and 25µ also available)
• Desiccant Air Breather for Drum ventilation integrity
• Stainless Steel Dispensing Console with drip pan
• Electronic Stop/Start buttons
• Dedicated Stainless/PVC Suction Spear/Hose for Drum with Cam Coupler
• MSHA-CFR30 – rated flame resistant Fire Suppression Hose Assemblies with quick connects
• Delivered pre-assembled and ready-to-use
• Size: 14”(w) x 24”(d) x 65”(h)
• Drum can be placed on any standard Drum Deck/Spill Pallet for SPCC Spill Compliance if required

TOTE DISPENSING RACK

The OILSAFE Tote Dispensing Rack delivers best practice contamination control for common 300 Gallon Totes in a modular, ergonomic and space efficient form.

• Positive displacement Gear Pump (3-5GPM) with internal bypass
• Retractable Hose Dispensing Reel (25 feet) with Trigger Dispenser
• Comes standard with 7µ, β2000 HP Filter with DP Indicator (4µ and 25µ also available)
• Electronic Stop/Start buttons
• Rack will accommodate Totes with base dimensions less than 41”(w) x 46”(d)
• Delivered pre-assembled and ready-to-use
• Additional Spill Pans available to expand Spill Pan capacity if SPCC Compliance is required

WASTE OIL SKIDS

Provide a collection point for used oils. Each system is housed in a spill containment pallet and includes:

• ¼” male quick connect for transferring the oils into the tank
• funnel for pouring oils in and draining out filter elements
• 4 leveling feet with forklift & pallet jack accessibility
• Identifiable white tank with a level indicator and 1-1/2” camlock access for bulk truck servicing

BULK FLUID TRANSFER SKIDS

Mobilize your fluids by transferring them safely utilizing an OilSafe Transfer Skid.

- 4-way filtration (fill, dispense, kidney loop & offline filtration capable
- Available in two tank sizes (120 gal and 240 gal)
- Built-in spill containment
- Integrated fork lift pockets provides easy and safe mobility via lift truck or pallet jack
- Pneumatic or Electric Pump options
- Standard 25µ Beta 2000 Spin-on-Filter for filling and dispensing
- 25-ft Fluid Hose Reel and 25-ft Air Hose Reel (for Pneumatic pump option)
- MSHA-CFRR30 – Rated flame resistant Fire Suppression Hose Assemblies
- Desiccant Air Breather ensures cleanliness by removing airborne contaminants and moisture build up
- Delivered pre-assembled and ready-to-use
- Available in OilSafe’s 10 standard colors, and customized labeling for best in class fluid identification

ADVANCED FLUID HANDLING CART

Maximize your equipment functionality with OilSafe’s Advanced Fluid Handling Cart.

- Maximum functionality
  - Store fluids
  - Bulk fluid transfer
  - Off-line filtration
- 4-way Dual Filtration (4µ, 7µ, 25µ Beta 2000 filters available)
  - Filling
  - Recirculate / Kidney Loop
  - Dispense
  - Off-Line
- Quick connects provide clean, secure connections
- 25-ft Hose Reel with high flow Dispensing Gun (Metering Gun upgrade available)
- Built-in spill containment
- Integrated forklift pockets for safe and quick mobility
- Air or Electric pump options available
- Available in OilSafe’s 10 standard colors, and customized labeling for best in class fluid identification

Desiccant Breathers and Modular Options

Contact us or visit airsentry.com to learn more about other models.

Air Sentry has set the standard for contamination control breathers since 1997, with state-of-the-art features that reduce particulate and moisture contamination. The breather lines integrate check valve technology and offer replacement cartridges, significantly reducing maintenance costs.

The clear acrylic tube makes it easy to inspect the condition of the color-changing silica gel from a distance. The silica gel turns from gold to dark green to visually indicate the adsorption of moisture and confirm the breather is getting the job done.

### D-Series

D-Series breathers feature numerous models in a variety of sizes, all designed to satisfy the requirements of most stationary fluid management applications. The breathers provide application flexibility by using 100% silica gel for moisture adsorption, 100% activated carbon for fume and odor control or both, when necessary. All D-Series models feature 2-micron solid particle filtration and are available with airflow ratings of 20 cfm. The D-Series is constructed of industrial grade raw materials, tested to ensure a wide range of chemical compatibilities, and features high impact resistant ABS top and bottom caps.

</tr>
</tbody>
</table>

### Z-Series

Z-Series breathers are designed for applications where space is limited or air flow requirements are lower than 5 cfm. The Z-Series is typically used on gearboxes and low fluid volume applications where mounting space is limited or where a larger breather won’t fit without remote mounting.

<table>

### X-Series

X-Series Breathers are the perfect solution for high humidity and high dust environments. To extend the desiccant’s life, the X-Series incorporates two check valves and a reusable top cap. The check valves provide a closed system until airflow is required, extending the service life of the desiccant.

<table>

XR-Series breathers are designed to perform in any extreme environment where protection from dust, moisture and vibration is critical. These breathers include a metal reinforced base, available with male NPT threads to adapt to your equipment. The base is designed to handle the rigors of high-vibration applications. The top cap uses two check valves to prevent outside moisture and solid contaminants from entering the breather until there is a need for airflow. The modular design allows for economical replacement of the desiccant cartridge.

GUARDIAN, Air Sentry’s industry leading breather series, features an isolation check valve that keeps exhaust air from depleting the desiccant and protects from volatile fumes and splashing fluids. The GUARDIAN’s casing is constructed from Tritan®, a patented material highly resistant to impact and chemicals with a broad range of operating temperatures. These unique features equate to a longer life for your breather and your equipment.

GUARDIAN MODULAR OPTIONS

**HIGH-CAPACITY AIR FILTER**

Part # 095GCAF

Can be used with a desiccant cartridge or as a standalone particle filter. Its 0.3-micron HEPA filter is 99.97% efficient. Ideal for extremely dirty/dusty environments.

**MODULAR STACKABLE RING**

Part # 095GMSR

Stack cartridges to extend the life of breathers even further using the Modular Stack Ring®. This proprietary feature lengthens the GUARDIAN’s service life, reducing cost and maintenance intervals.

**SHIELD WASH-DOWN CAP**

Part # 095GSWDC

The cap acts as a barrier where equipment wash-down happens frequently. This prevents direct spray from opening check valves in the top cap.

**INTEGRATED COMPOUND VACUUM/PRESSURE GAUGE**

Part # 095A655

This proprietary feature is a true-life accurate indicator of filter conditions.
**System Accessories and Upgrade Options**

**BULK STORAGE CABINET**

**PART # 890150**

The OILSAFE Bulk Storage Cabinet is designed to provide large capacity storage for lubrication tools and parts. The cabinet functions as either a standalone solution, or as a compliment to your OILSAFE Bulk Lubricant Storage System.

A rugged, workshop-ready solution, the OILSAFE Bulk Storage Cabinet enables immediate organization, storage and protection in one location for all of your lubrication reliability tools and shop floor products.

**PART # 890151**

Replaces bottom drawer with 76 gal spill pan.

**Features**

- Workplace Organization (5S)
- Cabinet Dimensions: 45" (w) x 45" (d) x 88" (h)
- Four Big Deep Shelves - for bulk storage of containers, sorbents, grease guns, filters, oil analysis equipment and other fluid handling shop equipment
- Six Large Smooth Glide Drawers - with removable parts trays for storage of fittings, tools, labels and parts
- Removable plastic parts bins easily clip on and off internal racks to increase storage capacity and speed for small parts selection
- All welded, high quality powder coated cabinet used as a standalone unit or can be easily adjoined with any OILSAFE Bulk Storage System

**SHIPS FULLY ASSEMBLED AND READY-TO-USE!**

**SUCTION HOSE STORAGE**

After emptying drums, totes or pails the suction hoses for the Advanced Systems and Lubrication Work Centers can be stored in the Mobile Hose Carts, on Wall Mounted Racks or if space permits on the side of your system with a Frame Mount Rack.

TANK OVERFILL ALARMS
Direct Mount Tank Overfill Alarms fit easily to Tank Level Gauges and can be supplied with your system or retrofitted to an existing OILSAFE Bulk Storage System.

- Audible and Flashing Light
- Can be reset even while in alarm mode
- Powered by a 9 volt Lithium Battery (supplied with battery)
- Audible Alarm 110 DB – will get your attention
- Test Switch allows you to test the battery before each use

OPTIONS | PART #
--- | ---
Direct Mount Overfill Alarm (Audible & Flashing Light) | 897102

BULK SYSTEM FILTERS
β2000 Micro Glass anti-static filters are a premium filter that provides maximum dirt-holding capacity, and superior particle capture over paper filters.

Efficient operation with minimum pressure drop and high flow rate.

14.2" FILTER | PART #
--- | ---
14.2" Filter Element β2000 - 4µ | 469962

6 - Frame Connector Kit | 821356
Storage Cabinets and Heavy-Duty Mobile Work Centers

Bring order to the workplace with these industrial quality fluid and equipment cabinets and mobile work centers.
Storage Cabinets and Heavy-Duty Mobile Work Centers

Instantly organize your lubricant and equipment area with these high quality, workshop ready storage

• Removable plastic parts bins easily clip on and off internal racks and increase storage capacity and speed for small parts selection

• Adjustable shelving options for storage flexibility

• High quality door handle with lockable features for added security - Medium Cabinet and Large Work Shop Cabinet include a stainless steel handle with key lock. Large Cabinet includes a cast handle in yellow with pad-lockable feature.

• All welded, high quality 14 – gauge steel construction, suitable for storage of your top up lubricant containers and lubrication equipment in the shop. No code rating is required for this lubricant storage capacity and application.

• Cabinets shipped fully assembled and ready to use

• Solid casters beneath swing out doors provide smooth door opening and support under heavy loads. Casters and legs provide clearance for forklift access – Casters and legs only available on Large Storage Cabinet

FLUID SAFETY CABINETS

Ideal for fuels, solvents and lubricant storage. A perfect complement to your fluid management area.

FM Approved. Conforming to NFPA Fire Code No. 30, OSHA standards and with adjustable shelving that adjusts on 4” centers, this versatile range of cabinets can be modified to suit your current and future requirements.

BUILT-IN QUALITY

- Constructed of 16-gauge steel with reinforced double walls
- All-welded, reinforced double wall construction (with 1-1/2” of insulating air space to offer fire resistant protection)
- Leak proof 2” pan bottom prevents leakage from accidental spills
- Heavy gauge galvanized steel shelves hold up to 350 lbs

BUILT-IN SAFETY

- Conforms to NFPA Fire Code No. 30 and OSHA standards. FM Approved
- Doors include a flush-mounted handle with built-in key lock for added security
- Self-closing safety doors have fusible link that melts when ambient temperature reaches 160°, releasing the door latch allowing the doors to move to the closed position
- Grounding wire connections standard on all cabinets dissipate static electricity buildup
- Screened flame arrester vents on both sides of cabinet with 2” threaded fittings for external exhaust and with fire baffle and cap
- Large warning labels on every cabinet

BUILT-IN EFFICIENCY

- Shelves adjust on 4” centers to maximize storage versatility
- Four adjustable zinc plated leveling legs
- Other cabinet sizes and configurations available

Spill Decks & Pallets

Designed with efficiency in mind, keep your employees and work environment safe from unexpected drum spills or leaks.
Spill Decks & Pallets
Designed with your efficiency in mind, keeps your employees and work environment safe from unexpected drum spills or leaks.

SPILL DECKS
There’s no need to worry about incidental spills on your factory floor. Spill Decks are the easiest to load with a low profile design and optional ramp. Each Spill Deck is designed for stand alone use or can connect with other Spill Decks for a customized work area.

- Large sump capacity catches incidental spills
- Low-profile Spill Decks become part of your factory floor, optimizing space for increased safety and efficiency. Makes drum loading a snap.
- Tough, one-piece polyethylene construction will not rust or corrode
- Multi-Purpose Work Ramp hooks onto any Spill Deck for easy loading
- Heavy-duty removable structural foam grates for easy cleaning
- Rolled-edge design helps resist cracking & warpage

RAMP - 6"
For easier loading, just hook this Ramp onto any of our Spill Decks. Small enough to stay out of your way.

Dimensions: 25.38" l x 46" w x 6.13" h

PART # 450555
IBC SPILL PALLET & IBC SPILL PALLET TARP

Intermediate Bulk Containment made easy.

This IBC Spill Pallet gives intermediate bulk container users more versatile spill containment. It fits more than 99% of all IBC dispensing units and features a large sump capacity of 385 gallons, exceeding EPA regulations! This unit also has an integrated 5 gallon pail holder for quick and easy dispensing. Optional drain with plug available.

- Forkliftable & Nestable for convenient shipment and storage
- 100% polyethylene construction will not rust or corrode or have adverse reactions with chemicals

**IBC SPILL PALLET TARP - PART # 450507**

Tarp includes: fold up work area, document pouch, side pouches for weights to keep tarp down in heavy winds, and adjustable cinch bungies in 4 corners.

**RAMP - 12”**

**PART # 450315**

Designed for 12” high spill pallets.

- Ribbed, non-skid surface for safe walking
- 10° ramp slope
- 100% polyethylene construction
- **Dimensions:** 68” l x 30.75” w x 12.5” h

**RAMP EXTENDER**

**PART # 450316**

Works with Ramp - 12” to accommodate 17” high pallets.

- **Dimensions:** 29.5” l x 8.5” w x 5.5” h

**SPILL PALLETS**

These secondary containment systems are engineered to meet the rigors of today’s regulatory environment.

Raised edges on back and sides helps orient barrels on the pallet. Made from 100% polyethylene, these Spill Pallets provide excellent chemical resistance. All units are forkliftable and have removable grates for easy cleaning. Includes drain and plug.

Unless otherwise specified, supplier warrants that all goods will be free from defects in materials and workmanship for a period of six months from the time of delivery to the Consumer by Supplier. Repair, replacement or credit (at Suppliers option) upon return of the goods is purchaser's sole remedy for such losses, expenses, inconveniences or damages. The limited warranty does not apply if (1) the defect is the result of use or handling of the goods in a manner, circumstance or purpose other than those intended, approved or instructed by Supplier; or (2) the goods are misused or abused or there is evidence of tampering, mishandling, neglect, accidental damages, modification or repair without the approval of supplier.

THE LIMITED WARRANTY PROVIDED ABOVE IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE LIMITED WARRANTY IS IN LIEU OF ANY OTHER LIABILITY OR OBLIGATION FOR LOSSES, EXPENSES, INCONVENIENCES OR DAMAGES (WHETHER SPECIAL, INDIRECT, SECONDARY, OR CONSEQUENTIAL) ARISING FROM OWNERSHIP, USE OR NON-USE OF THE GOODS. PURCHASER HEREBY WAIVES ANY RIGHTS THAT IT MIGHT OTHERWISE BE ENTITLED TO IN CONNECTION WITH THE MATTERS COVERED IN THIS PARAGRAPH.
