The Lubrication Technologies automatic lubrication systems meter small amounts of lubricant to all chassis components.

- Utilizes divider valve assemblies which may be manually greased if needed
- Proven reliability in apparatus
- Cost effective

The use of Lubrication Technologies’ system eliminates spring breakage which often results in repair costs approaching that of an installed system.

- Local parts supply
- Readily available service installed at your facility
- 2 year warranty
- Custom designed and installed on any brand of vehicle

If you already own apparatus with a Vogel® system, we can service it as well as provide a lubricant that will provide superior performance to the Vogel® recommended product.
Optimize Your Maintenance Strategy With These Solutions

Chassis Grease Options
The next best thing to our automatic system is 3752 Almagard® Vari-Purpose Lubricant. Eliminates spring hanger pins not taking grease, doesn’t pound or wash out and lasts longer between grease intervals. 4700 Monolec® Industrial Lubricant fits the needs of Vogel systems.

Ladder Lubrication
Stop the mess! Eliminate the constant cleaning and relubrication on the slides. Using 9200 Almasol® Dry Film Lubricant provides an alternative to steam cleaning and regreasing forever. Coat the surfaces as if you were painting them and occasionally touch up as needed. Simple, clean and efficient.

Transmission Protection
Transmissions see cold starts, heavy loads, and wide operating temperatures. LE’s Monolec® Syn Multi-Vehicle ATF provides exceptional protection and performance for your Allison transmissions as well as light vehicle applications.

Engine Protection
Users of Monolec® Engine Oil experience longer safe drain intervals and extended engine life. Protect the investment! Apparatus experience hard lives and they need the added protection afforded by Monolec® Engine Oil.

Condition Monitoring
Assess the condition of your engines and hydraulic systems (as per NFPA) with oil analysis. Extend drain intervals, check for coolant contamination or fuel dilution.

These products are designed to protect your assets and maximize productivity, regardless of the application. With decades of service, we are a valuable resource to you for all of your lubrication needs.
